ADOHTA WA WE'VE GOT IT COVERED

Speaker 1

Dr Derek Mahony – Orthodontist
BDS (Syd), MScOrth (Lon), DOrthRCS (Edin), MDOrthRCPS (Glas), MOrthRCS (Eng), FRCD (Can), MOrth RCS (Ed), FICD, IBO, FACD, FICCDE, FADFE

Topic 1: **Diagnosis and treatment of Paediatric Sleep Disordered Breathing Problems**

Topic 2: **Orthodontic Management of Complications Following Dental Trauma**

I am a graduate of the University of Sydney, Faculty of Dentistry, and an Alumnus of the University of London, Master's Program in Orthodontics. I am a Fellow of the International College of Dentists.

I have been actively involved in research that links constricted maxillary arch forms to nasal breathing problems, adverse facial growth and systemic health problems such as nocturnal enuresis. I have presented over 400 lectures on orthodontic topics, in more than 30 countries. As a practicing clinician, my research interests are in the etiology of malocclusion and guidance of facial growth.

I am a member of the editorial board of five international dental journals, and a visiting lecturer at the City of London Dental School. I practice the full remit of Orthodontics and Dentofacial Orthopaedics, including functional appliances, treatment of TMD and the diagnosis and treatment of obstructive airway problems such as snoring and sleep apnoea.

Speaker 2

Dr Sheyda Khadembaschi – Paediatric Dentist
BDSc, DClinDent (Paediatric Dentistry)

Topic: **Good and Bad Habits – the positives and negatives of dummy sucking, digit sucking, and tongue thrust swallow in infancy through to childhood.**

Dr Sheyda Khadembaschi completed her Bachelor of Dental Science degree at the University of Western Australia in 2005, following which she worked in a rural private practice in Wongan Hills, WA for two years. Her interest in Paediatric dentistry led to an undertaking of a full-time role as Dental Registrar at Princess Margaret Hospital for Children in 2010. In 2011 until 2013, Sheyda completed the three-year postgraduate Doctor of Clinical Dentistry (Paediatric Dentistry) degree at the University of Melbourne. During this time, she worked at the Royal Children's Hospital, Melbourne, as well as the Paediatric Department of the Royal Dental Hospital of Melbourne. Sheyda supervised undergraduate dental students at the University of Melbourne Dental School and gave presentations at local and international conferences.

Sheyda was also involved in continuing education for general dentists and dental therapists Sheyda returned to Perth in 2014 and commenced Private Specialist Paediatric Dental Practice, continuing education for general dentists and dental therapists and teaching of undergraduate dental students at the University of Western Australia. Sheyda has been consulting from the Bicton rooms in 2015 and Cockburn rooms in 2016 and has regular general anaesthetic lists at Southbank Day Surgery. She enjoys all facets of Paediatric Dentistry, with a special interest in dental trauma and preventive dentistry. Sheyda also holds an appointment as Dental Consultant at Princess Margaret Hospital where she treats medically compromised patients and provides clinical tuition to Dental Registrars.

Speaker 3

Dr Peter Kerrisk – Periodontist
BDSc MDSc FRACDS (Perio)

Topic 1: **Conebeam CT for Periodontitis and Peri-implantitis patients, and how to determine a Periodontal and Peri-implant prognosis.**

Topic 2: **Indication and techniques for Periodontal Surgery**

Dr Peter Kerrisk graduated from the University of Queensland in 1997. He joined the RAAF and worked as a Flight Lieutenant Dental officer before commencing training in Oral and Maxillofacial Surgery in 2000. He completed two years of training, working at the Royal Hobart, Adelaide and Darwin Hospitals. Although Peter enjoyed working in the hospitals, he found that he preferred focusing his time on Oral procedures over the full scopes of Maxillofacial Surgery. Peter then resigned from OMFS training and commenced his specialty training in Periodontics at the University of Western Australia. Peter completed a Master of Dental Science in 2008 and his Fellowship with the Royal Australasian College of Dental Surgeons in 2009. Peter has worked in private practice since and runs his own Periodontal practice in South Lake.

Speaker 4

Megan Reilly
BN MHlthSc MACN

Topic: Infection Prevention and Control Update

Megan has 28 years' experience working in the area of infection prevention and management in the acute, ambulatory, community, residential, office-based, child care, justice and aviation setting. She completed her master's in health science (Infection Control) in 2002 and has been the Director of Hands-On Infection Control since 1998, providing an infection prevention advisory, education and immunisation service to health care and related industries throughout Australia.

Megan has presented posters and papers at state, national and international conferences, published in Healthcare Infection and Infection Control & Hospital Epidemiology, established a respite house for people living with HIV/AIDS and currently co-coordinates a graduate certificate in infection prevention and control course with the Centre for Nursing Education at Sir Charles Gairdner Hospital.

Megan's professional memberships include the Australasian College for Infection Prevention and Control (ACIPC), Association for Professionals in Infection Control and Epidemiology Inc (APIC), Australian College of Nursing (ACN), Chamber of Commerce & Industry (CCI), the Australian College of Operating Room Nurses (ACORN) Ltd and the Sterilizing Research and Advisory Council of Australia (WA) Inc. She has held executive positions on both State and National infection control professional associations and is currently co-lead of her professional College's WA Special Interest Group.
